## ABSTRACT

The Houston Community College System (HCCS) (Texas) is the third largest community college system in the state of Texas. Its five regional colleges offer workforce training programs, academic transfer courses, and continuing education. HCCS is the state-mandated workforce trainer for the city of Houston. More than 22% of the area's adult population (1,387,720) is African American, 32% is Hispanic, 37% is white, and 6% is Asian/Pacific Islander. In addition, 32% of households have incomes lower than \$25,000, and 17% have incomes lower than \$15,000. At least 56% of high school students are economically disadvantaged, and 19% are bilingual/ESL students. This fact book for HCCS provides a brief overview of each of the following areas: (1) Vision 2000-2003; (2) Values 2000-2003; (3) Mission 2000-2003; (4) Goals and Objectives 2000-2003; (5) Overview of the HCCS; (6) Elected Board of Trustees; (7) Board Member Districts Map; (8) Service Area Demographics; (9) Service Area Map; (10) Accreditations and Approvals; and (11) Partnerships, which includes tech prep articulation with high schools and articulation agreements with senior institutions. Trend data extends over 6 years, from 1995 through 2001. Contains more than 60 tables, figures, and graphs. (NB)

## PREFACE

The Houston Community College System (HCCS) 2001-2002 *Fact Book* provides statistical information about the college system. It is important for the reader to be aware that data presented in this publication may differ from statistics found in other system reports. Such variances may result from differences in the source of information used (IPEDS, CBMs, TEA, HCCS reports), the reporting period covered (semester, academic year), or the student base included (credit, noncredit, credit/noncredit combined). For the 2000-2001 *Fact Book*, data sources were changed to include the HCCS OIR DataMarts and newly developed PeopleSoft extracts. In this edition, trend data has been extended to six years. To assist the reader, analytical statements have been added to some pages. The source of the information in each table and graph is cited, along with the date generated, the reporting period, and the students included.

The 2001-2002 *Fact Book* is available online at <http://www.hccs.cc.tx.us>. Click on "HCCS Facts."

## GENERAL INFORMATION

### VISION 2000-2003

#### **Houston Community College System will be:**

- An institution that is nationally recognized for its educational excellence and its commitment to learning.
- The educational institution of choice for those who seek academic advancement leading to professional careers, for those who seek skilled training for the workforce, those who seek to upgrade their skills to enhance preparedness for economic opportunity, and those who seek lifelong learning opportunities to enhance their quality of life.
- An integral part of the social, economic and educational life of the community through quality partnerships and responsiveness to community needs.

## GENERAL INFORMATION

### VALUES 2000-2003

The Houston Community College System affirms these values:

- Commitment to learning
- Dedication to excellence
- Academic integrity
- Respect for individual dignity and worth
- Appreciation for diversity
- Global awareness and involvement
- Civic responsibility
- Collaboration and partnerships
- Creative thinking

## GENERAL INFORMATION

### **MISSION 2000-2003**

The Houston Community College System is an open-admission, public institution of higher education offering associate degrees, certificates, academic preparation, workforce training, and lifelong learning opportunities that prepare individuals in our diverse communities for life and work in an increasingly international and technological society.

#### **Houston Community College System will provide:**

- Affordable and accessible education
- University transfer and general education
- Workforce development
- Customized training
- Continuing education
- Adult literacy and developmental programs
- Personal enrichment opportunities
- Comprehensive student support services
- An environment conducive to learning

*Approved by the HCCS Board of Trustees, April 26, 2000.*

## GOALS AND OBJECTIVES 2000-2003

### Goal 1. Focus on Student Learning in the Classroom

- 1.1 Select and implement multiple mechanisms for the evaluation and improvement of student learning in each discipline and program
- 1.2 Identify, in each course syllabus, activities and responsibilities that engage students in their own learning
- 1.3 Revise the Student Evaluation of Instruction and the Faculty Performance Appraisal to focus on student learning
- 1.4 Ensure that full-time instructors teach 60% of credit courses
- 1.5 Enhance support for adjunct faculty

### Goal 2. Ensure Student Access and Success through Comprehensive Student Services

- 2.1 Create and market a "One Stop Shop" with extended hours in each college to expand access to services
- 2.2 Develop and implement a comprehensive student advisement and tracking system that creates individual learning plans to guide students from initial enrollment through completion of their goals
- 2.3 Develop and implement an orientation program that includes 75% of all new students
- 2.4 Expand on-line student services, resulting in use by 90% of all students

### Goal 3. Develop and Maintain Outstanding Educational Programs

- 3.1 Develop six new workforce degree programs
- 3.2 Revise and expand the program review process
- 3.3 Evaluate the core curriculum

## GENERAL INFORMATION

### GOALS AND OBJECTIVES (Cont.)

- 3.4 All discipline committees, hubs and departments will create curricula that broaden students' perceptions of the world
- 3.5 Develop and implement an instructional technology equipment/software plan that defines a system-wide three-year purchase, recycling and maintenance process

#### **Goal 4. Ensure a Quality Learning Environment**

- 4.1 Establish and meet system-wide learning environment standards for all campuses, centers, and sites
- 4.2 Establish and meet system-wide standards for information technology to be used by students, faculty, and staff for equipment, software, training, and support
- 4.3 Achieve SACS compliance at all college libraries
- 4.4 Increase resources for improving the learning environment by: (a) growing external funding by \$1 million per year through development activities, and (b) reallocating \$250,000 per year through efficiency measures
- 4.5 Strengthen staff needed to maintain a quality learning environment

#### **Goal 5. Connect the Learning College to the Local and Global Community**

- 5.1 Strengthen linkages with the external community
- 5.2 Develop strategies for increasing community support

*Approved by the HCCS Board of Trustees, June 22, 2000; Updated February 26, 2002.*

## GENERAL INFORMATION

### OVERVIEW

The Houston Community College System stands as a model for urban community colleges across the nation, through partnerships with the business community, other educational institutions and numerous public agencies. Since its inception in 1971, the college system has touched the lives of more than a million individuals in the greater Houston area, which boasts a population of 4.2 million. To serve Houston's growing population, HCCS embarked on a facilities expansion plan beginning in Fall 1997, opening nine new facilities and the 3100 Main administrative center. The new Alief Center opened in Fall 2001, the Willie Lee Gay Hall on Highway 288 is scheduled for opening in Fall 2003, and land is being purchased for the future Missouri City center. A new comprehensive Ten-Year Facility Master Plan was completed in 2002, which will guide future expansion.

HCCS is the third largest community college system in the State of Texas and the largest on the Texas Gulf Coast. Its five regional colleges offer workforce training programs, academic transfer courses and continuing education to one of the largest and most diverse student bodies in the country. In addition to the Learning College initiative, HCCS is implementing a new Student Success Model, which offers a comprehensive approach to providing student support services. The two initiatives are designed to enhance student learning in the classroom, to ensure student access and success through comprehensive student services and to develop and maintain outstanding educational programs in a quality learning environment. Evaluation of the initiatives will be based on specific outcome measures that indicate student success, such as retention in higher education, number of program completions and student placement in jobs.

As the state-mandated workforce trainer for the city of Houston, with a commitment to intellectual growth, economic expansion and community development, the college system has developed a broad range of programs and services to ensure that no group of individuals is without resources to reach its goals. The ACT Center is a new resource for workforce training added by HCCS in 2001. Located at 3100 Main, the ACT Center offers over 1200 online continuing education courses, professional and licensure certification testing, specialized skills assessment and customized corporate workforce training services. This comprehensive approach to education will be the key to the economic vitality of this city in the coming years.

## ENROLLMENT TRENDS

### TOTAL ENROLLMENT BY ETHNICITY—FALL 1996-2001

**ANALYSIS:** Hispanics form the largest student group at HCCS, accounting for 30.8% of the total enrollment in Fall 2001, slightly less than their representation in the adult population of the service area. The percentage of African American students at 23.9% is also comparable with the adult population, which is 22.5%. Asian enrollment has consistently exceeded the proportion of that group in the adult service area population (6.4%). As a percentage of HCCS enrollment, White students have decreased in the past few years.

## NONCREDIT ENROLLMENT BY AGE—FALL 1996-2001

**ANALYSIS:** Students aged 22-35 consistently account for more than 33% of all noncredit enrollments. This chart also shows a substantial decrease in noncredit enrollment beginning in 1999-2000, which is attributable to the conversion of eligible non-state funded continuing education courses to CEU credit courses.

## CREDIT ENROLLMENT BY ETHNICITY—FALL 1996-2001

**ANALYSIS:** African American and Hispanic enrollments have increased slightly, while Asian/Pacific Islander enrollments have decreased. American Indian/Alaska Native enrollments consistently comprise 2-3% of the credit student population. There has been a large increase in credit enrollments among Non-resident Aliens, possibly attributable to acceptance of undocumented aliens.
